

Nationally Consistent Collection of Data for School Students with Disability

From the Principal:

Tuart College is part of a national project about students with disability and/or learning difficulties.

We have been asked to provide data about the number and learning needs of students at the college. The name of the college and the name of the students will not be reported. Information about the different types of needs and the programs and resources the college uses to overcome barriers and support children with special educational needs will be collected.

We believe it is important to contribute to this because it will help Governments and the Department develop better policies that acknowledge the level of resources needed in schools to meet the needs of all students in Western Australia.
