MS Excel 2010
Beginners
(1 Day Workshop)
Course Outline

**Description:**
An introduction to using MS Excel 2010. Suitable for anyone wanting to learn the basics of Excel 2010. The course covers: creating and saving worksheets, autosum, formatting and alignment, cell styles, cut/copy/paste, creating formulae, using series, page breaks, charting and headers and footers.
Note that Excel 2007 is similar in functionality to Excel 2010.
